S. Ted Treves, MD

Dr. Boice is professor of medicine at Vanderbilt University and President of the National Council on Radiation Protection and Measurements. He is an international authority on radiation effects and served for more than 20 years on the Main Commission of the International Commission on Radiological Protection and the United Nations Scientific Committee on the Effects of Atomic Radiation. He is a radiation epidemiologist and currently directs the Million Person Study of Low Dose Radiation Health Effects, studies the children of cancer survivors, and serves on the Steering Committee of the Childhood Cancer Survivor Study (St. Jude’s Cancer Research Hospital).
