Mr. Strauss is an Assistant Professor of Radiology at the University of Cincinnati School of Medicine in Cincinnati, Ohio. His research interests include development of configurations of imaging equipment that uses ionizing radiation to achieve diagnostic image quality at the least possible radiation dose during the imaging of children. His leadership in professional organizations has included the American Association of Physicists in Medicine (AAPM), American College of Radiology (ACR), Society for Pediatric Radiology (SPR), International Electro-Technical Commission (IEC), International Atomic Energy Agency (IAEA), National Council on Radiation Protection and Measurements (NCRP), and Radiological Society of North America (RSNA).
